# Legacy ECU Flash prior to 1998 Model Year

1016 Chris Ordner Wed, May 18, 2022 DRB III, Enhanced DRB III Emulator, TechTOOLS, Troubleshooting TechTOOLS 8558

Enhanced DRB III Emulator supports ECU Flash for non-CAN Chrysler Group vehicles for 1998 and newer model years. ECU Flash on 1997 and prior model years requires a physical DRB III device. If a user attempts to download a 1997 model year or prior ECU flash file for use with Enhanced DRB III Emulator with TechTOOLs, TechTOOLs will give an error stating: *DRB III Emulator does not support model years prior to 1998.*

ECU Flash on 1997 and prior model years requires a physical DRB III device. If you do not have a physical DRB III device, you can rent one from Controller Technologies Corporation. Please see their website for additional details: https://www.controllertech.com/products/drb-iii-rental
