Legacy ECU Flash prior to 1998 Model Year

1016 Chris Ordner Wed, May 18, 2022 <u>DRB III</u>, <u>Enhanced DRB III Emulator</u>, <u>TechTOOLS</u>, <u>Troubleshooting TechTOOLS</u> 6523

Enhanced DRB III Emulator supports ECU Flash for non-CAN Chrysler Group vehicles for 1998 and newer model years. ECU Flash on 1997 and prior model years requires a physical DRB III device. If a user attempts to download a 1997 model year or prior ECU flash file for use with Enhanced DRB III Emulator with TechTOOLs, TechTOOLs will give an error stating: *DRB III Emulator does not support*

model years prior to 1998.

ECU Flash on 1997 and prior model years requires a physical DRB III device. If you do not have a physical DRB III device, you can rent one from <u>Controller Technologies Corporation</u>. Please see their website for additional details: https://www.controllertech.com/products/drb-iii-rental
