

Impossible d'accéder à wiTECH 2.0 lorsque le site DealerCONNECT n'est pas disponible

559 Sophie P Wed, Jan 11, 2017 [Articles publiques de wiTECH 2.0](#) 3014

Quand le site DealerCONNECT n'est pas disponible, cela compromet le système wiTECH 2.0. Vous trouverez ci-dessous quelques exemples que vous pourriez apercevoir lors de la tentative d'utilisation de wiTECH 2.0 quand le site ou les services DealerCONNECT ne sont pas disponibles.

1. Vous recevez le message suivant en réponse a une tentative de connexion au site wiTECH 2.0 avec un mot de passe correct : "Unable to login. Please check your user credentials and/or check to see if DealerCONNECT is experiencing downtime."

The screenshot displays the login interface for the MOPAR wiTECH 2.0 system. At the top center, the MOPAR logo (a blue stylized 'M') and the 'wiTECH 2.0 Beta' logo are visible. Below the logos are three input fields: 'Username', 'Password', and 'Dealer Code'. A prominent red error message box is centered on the page, containing the text: "Unable to login. Please check your user credentials and / or check to see if DealerCONNECT is experiencing downtime." Below the error message is a 'Remember me' checkbox and a 'Sign in' button with a right-pointing arrow. In the bottom right corner, there is a blue link labeled 'Edit Preferences'.

2. Vous avez établi la connexion avec un véhicule mais vous recevez le message “Unable to reach DealerCONNECT. Some type of service information may not be available.”

The screenshot shows the wiTECH interface with a sidebar on the left containing categories like VEHICLE, UTILITIES, RESOURCES, HELP, ME, and SYSTEM. The main area is titled "Vehicle Selection" and features a "Sort By: Connection Time" dropdown. A vehicle card for a "2014 DJ" is displayed, showing a car icon and the following details:

VIN	3xxxxxxxxxxxxxxxxx2	Device Name	RDM-WMP-00000
Device Serial Number	WSP-xxxxx	Connection Time	08:55:57 AM

Service information counts are shown as icons: 0 DTCs, 3 Flashes, 3 Recalls, and 3 RRTs. A red error message at the bottom of the card reads: "Unable to reach DealerCONNECT. Some types of service information may not be available." A note at the top right of the card states: "List refreshes automatically as devices are connected or removed."

Si vous voyez ces messages ci-dessus, veuillez consulter la page Site Status de DealerCONNECT au <https://sitestatus.dealerconnect.com/> avant d'appeler le support wiTECH.
