Aftermarket/Fleet Customers

Mopar Diagnostic Pod (MDP) is the new tool for wiTECH 2.0 that provides required advancements for your shop. The MDP is required to diagnose and repair the 2021 WL and other upcoming Stellantis vehicles equipped with the Atlantis High vehicle architecture. The Atlantis High architecture incorporates new vehicle communication technology (CAN FD, Ethernet) that the current microPod does not support.

The MDP is available for daily sales in the wiTECH 2.0 Aftermarket Hardware store at mopartsp.com

MDP Key Benefits:

- Supports new vehicle communication technology
    - CAN FD and Ethernet
- Required for 2021 WL and future Stellantis programs
- Supports all vehicles that the current microPod II supports
- Increased warranty period (2 years)
- Increased speed and performance

    - Improved memory, processor, and Wi-Fi
- Rubber case (boot) for increased durability
- MDP and boot are “Mopar Blue”
- The protective boot will also fit the microPod II
